

DIAGNOLAB DL-230

Semi-Auto Chemistry Analyzer

Cost-effective, Reliable & Efficient for Routine Diagnostics

Product Overview

- Semi-Auto Clinical Chemistry Analyzer
- Designed for routine clinical diagnostics
- User-friendly interface
- High precision optical measurement system
- Reliable and stable performance

Key Features

7-inch Color
Touch Screen

Human-Centered
Software Interface

Real-Time Reaction
Curve Display

Large Data Storage –
100,000 Test Results

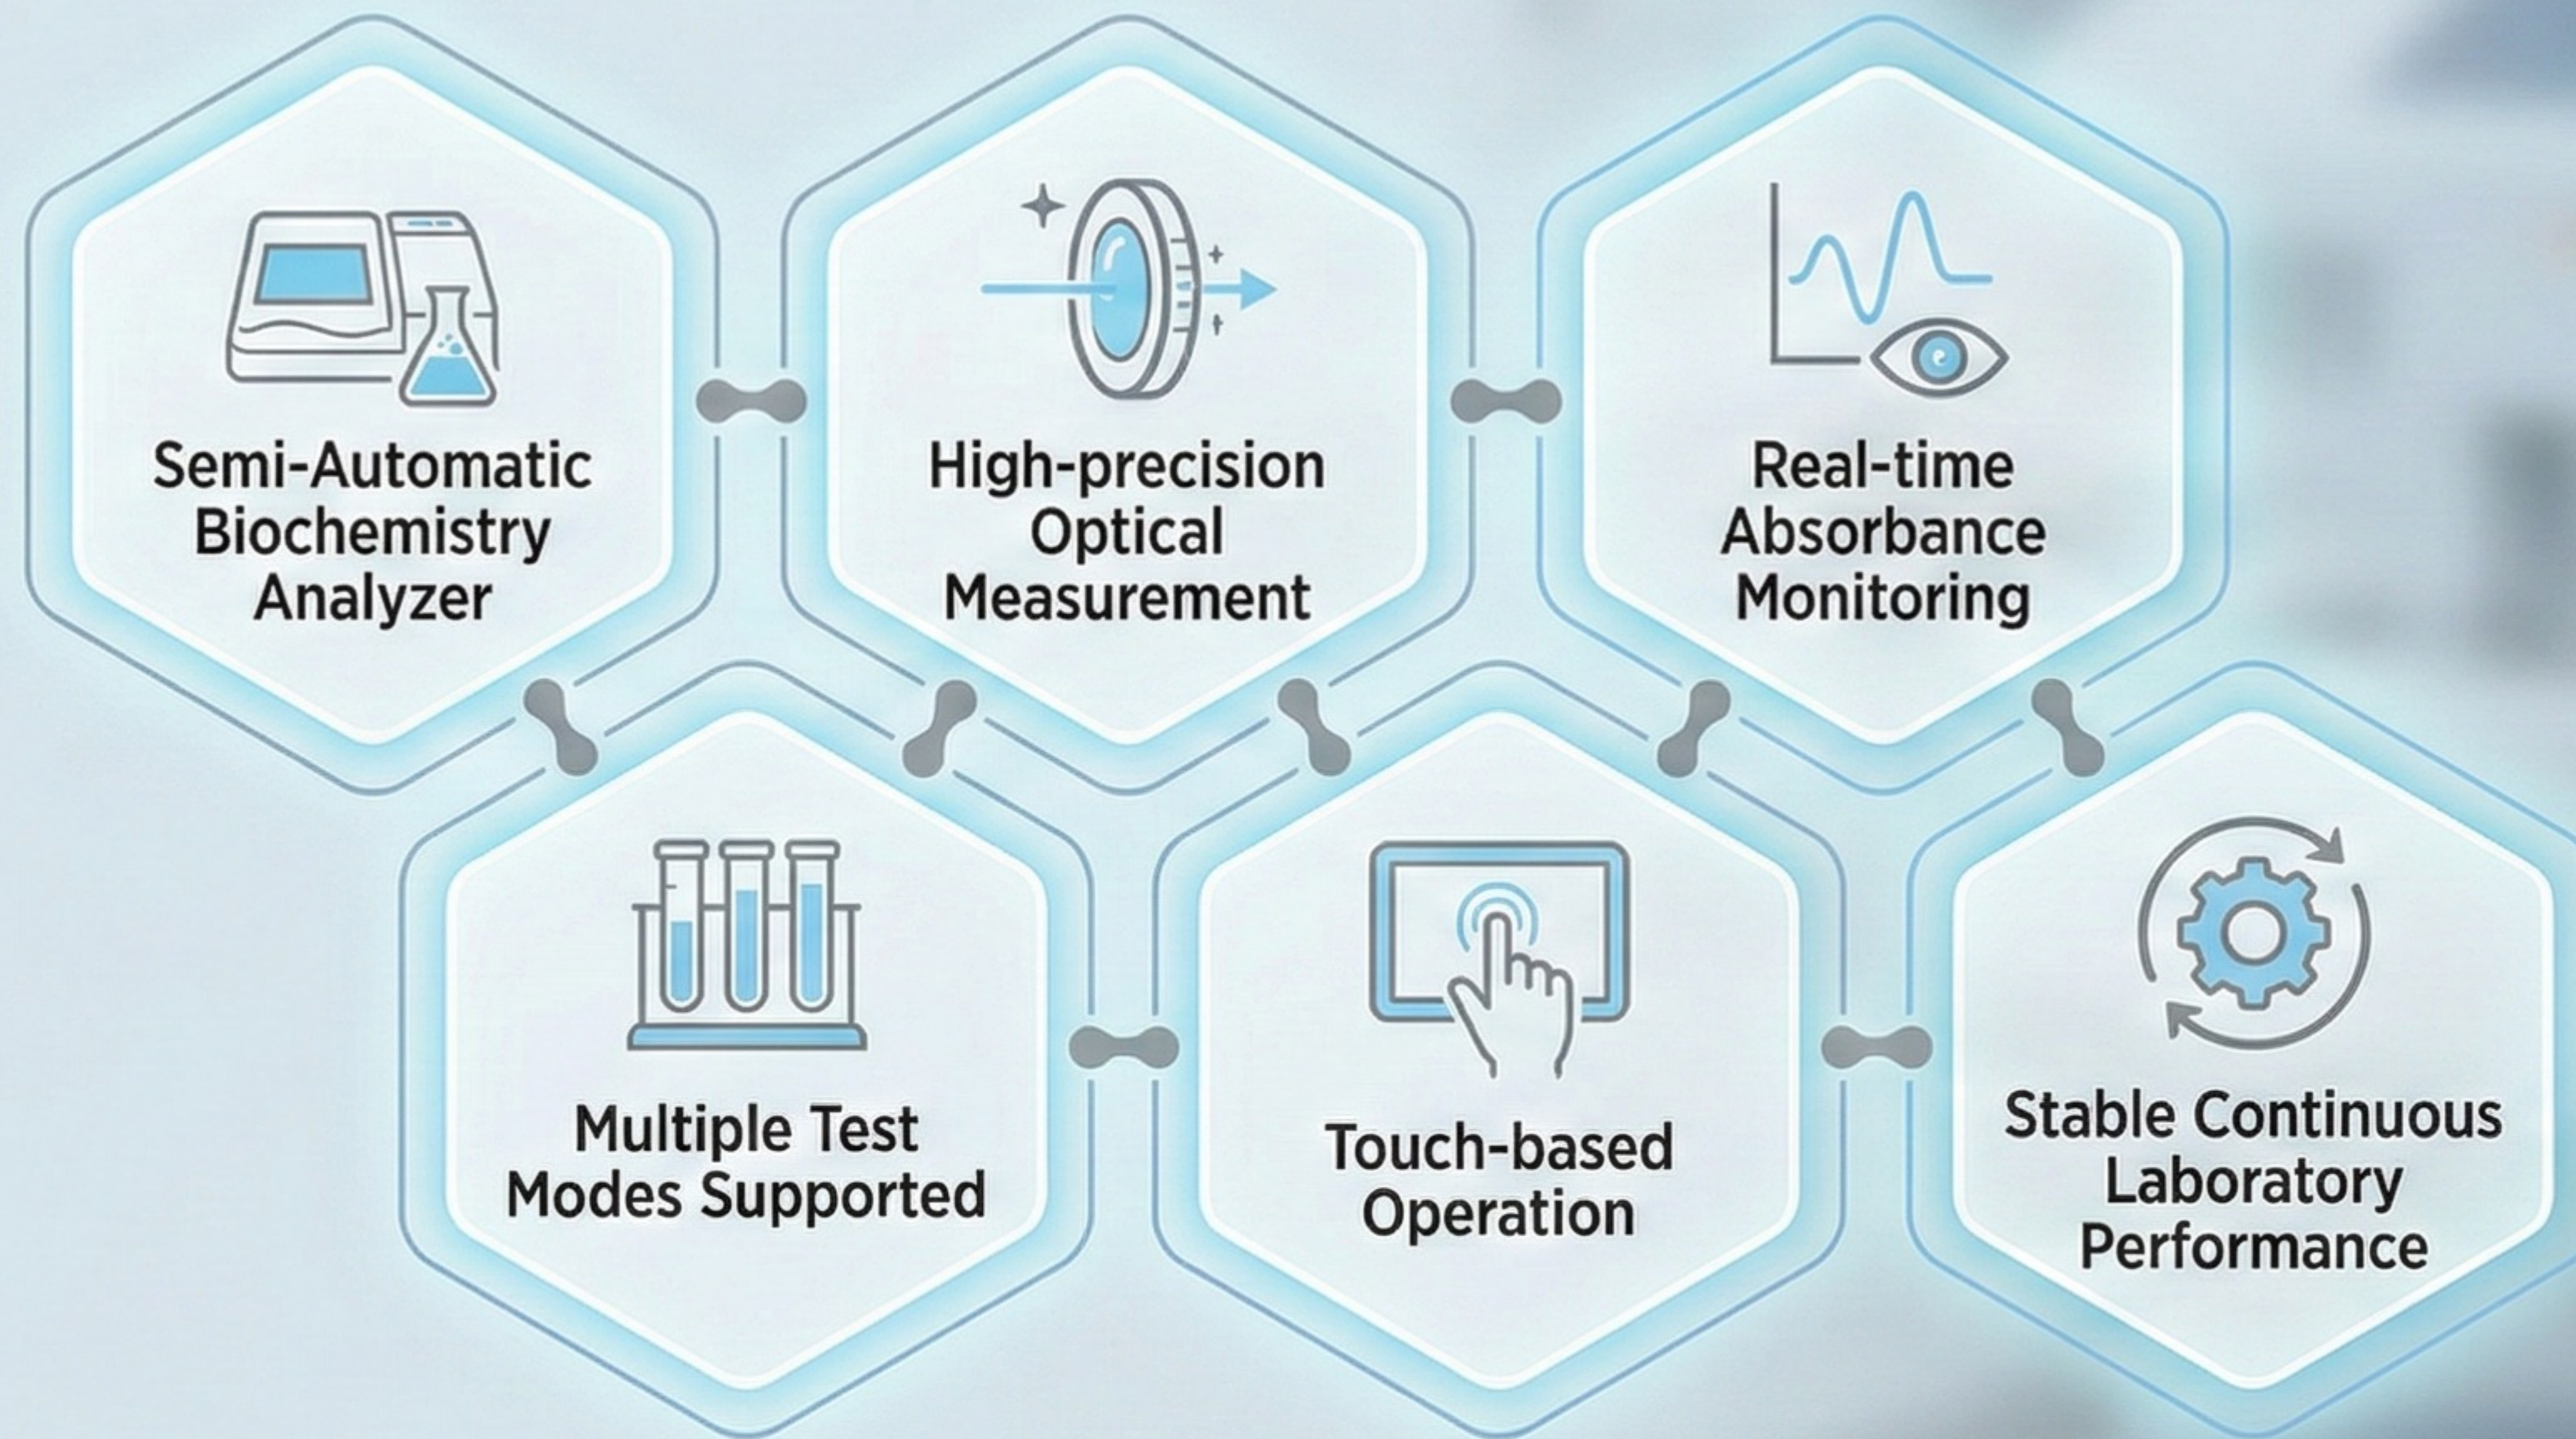

Low Maintenance
Design

Fast and Accurate
Results

Technical Highlights

Applications

Clinical & Diagnostic
Laboratories

Hospitals &
Medical Centers

Research & Teaching
Laboratories

Private & Government
Healthcare Facilities

Why Choose DL-230?

Cost-effective
without
compromising
accuracy.

Reliable and
robust
construction.

Easy operation
with minimal
training.

Optimized for
routine biochemical
analysis.

Ideal for emerging
and established
laboratories.
