

TECNO 786 Advance Clinical Chemistry Analyzer

Advanced Diagnostic Precision for Modern Laboratories

TECNO 786 Advance is a reliable and efficient clinical chemistry analyzer designed to support modern laboratories with accurate, fast, and consistent biochemical testing. It combines intelligent functionality, user-friendly operation, and dependable performance to meet the growing demands of routine diagnostic analysis.

Precision | Speed | Reliability

TECNO 786 Advance Clinical Chemistry Analyzer

Introduction

The **TECNO 786 Advance** is an advanced clinical chemistry analyzer developed to deliver accurate biochemical test results for laboratories, hospitals, and diagnostic centers. It is designed to improve workflow efficiency, reduce manual intervention, and provide dependable analytical performance for routine testing.

This analyzer supports diagnostic professionals by offering:

-  Fast and consistent sample processing;
-  Reliable analytical performance;
-  Simplified operation for laboratory staff;
-  Efficient support for routine chemistry testing.

A practical solution for laboratories seeking dependable diagnostic accuracy.

TECNO 786 Advance Clinical Chemistry Analyzer

Key Features

TECNO 786 Advance is engineered to support efficient laboratory performance through advanced operational features and dependable analytical capability.

High-Precision Chemistry Analysis

Chemistry analysis with high accuracy

User-Friendly Digital Interface

Modern digital control panel

Reliable & Consistent Test Performance

Dependable test results

Efficient Routine Sample Processing

Streamlined routine workflow

Compact Bench-top Design

Space-saving footprint

Reduced Manual Handling

Lower human intervention

Suitable for Diagnostics Laboratories & Clinics

Versatile lab solution

Designed for Dependable Daily Laboratory Use

Designed for rigorous lab use

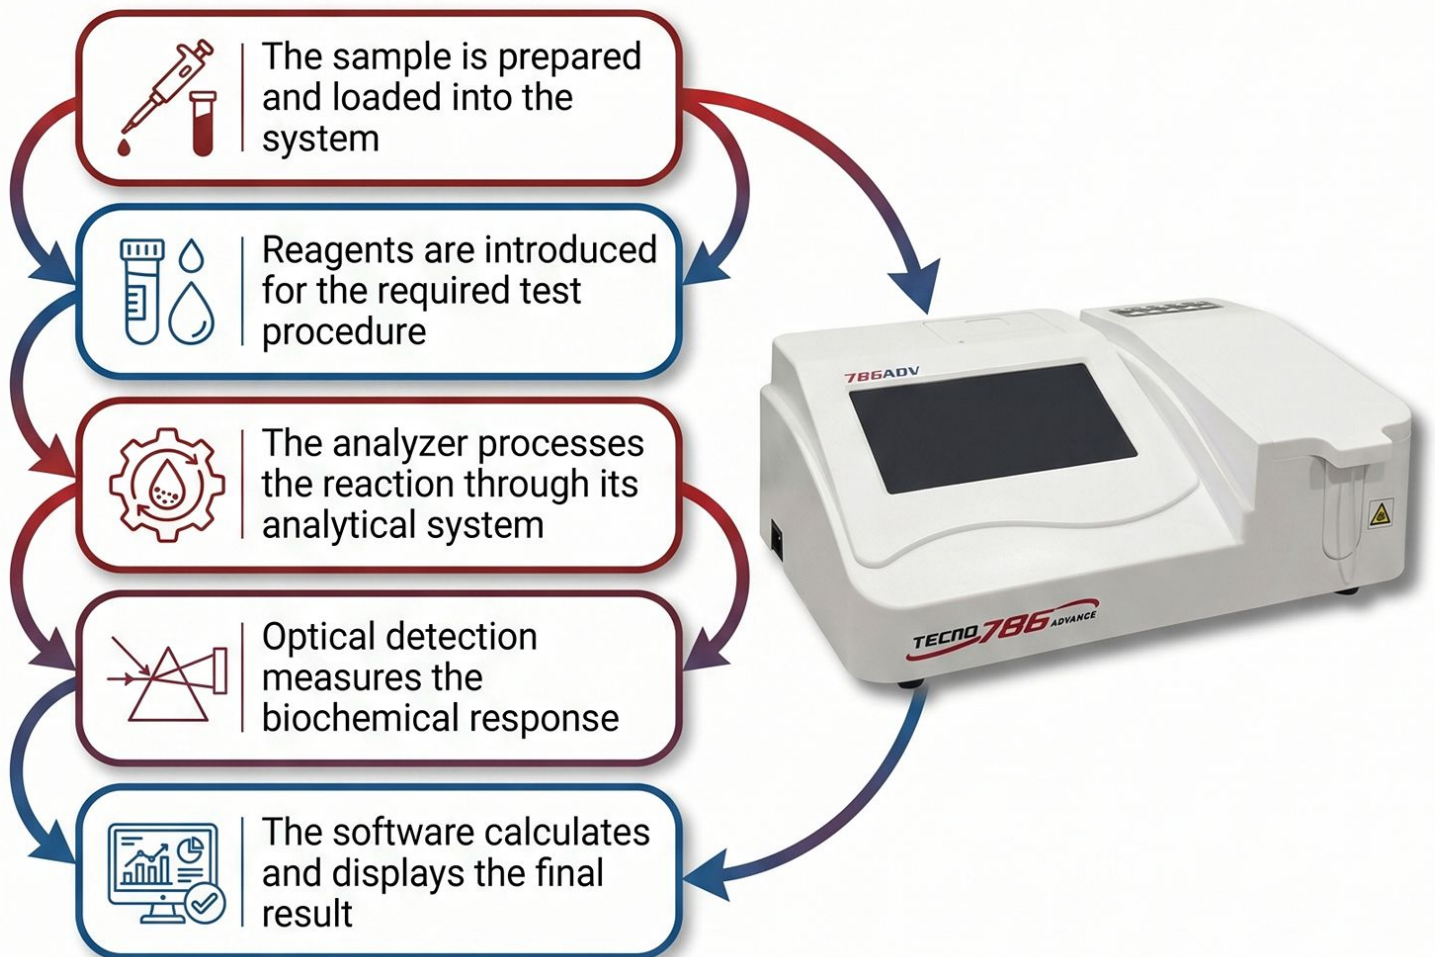

External Mouse & Keypad Connectivity

Support for optional standard mouse and keyboard connection

**TECNO 786 Advance Clinical
Chemistry Analyzer**

Functionality & Working Principle

TECNO 786 Advance performs biochemical analysis through an organized and efficient testing process. It is designed to ensure reliable diagnostic output with improved operational convenience.

Result:

This process helps laboratories achieve fast, standardized, and dependable chemistry testing outcomes.

Precision | Speed | Reliability

TECNO 786 Advance Clinical Chemistry Analyzer

Applications, Benefits & Technical Profile

TECNO 786 Advance is suitable for routine biochemical testing in a wide range of healthcare and diagnostic environments.

Applications

- Diagnostic laboratories
- Hospitals
- Clinics
- Research and routine testing facilities

Benefits

- Improves workflow efficiency
- Supports accurate and repeatable results
- Helps reduce manual effort
- Enhances routine laboratory productivity

Technical Profile

- Clinical chemistry analyzer
- Bench-top design
- Digital control interface
- Suitable for routine biochemical assays
- Designed for reliable day-to-day laboratory operation

A dependable analyzer for routine diagnostic excellence.

TECNO 786 Advance Clinical Chemistry Analyzer

Test Parameters

Hepatic Function

ALB TP ALP AST (GOT) ALT (GPT) GGT DB TB

Kidney Function

CREA UA UREA

Cardiac Biomarker

CK CK-MB HBDH LDH

Inorganic Ions

Ca Cl Fe K Mg Na P

Blood Lipids

CHOL TG HDL LDL ApoA1 ApoB Lp(a)

Others

AMY GLU
